PROFESSIONAL SUMMARY

Computer Science and Commerce (Information Systems) student at UNSW with over seven years of exposure to web development, expanding from HTML, CSS, and JavaScript into frontend engineering, software systems, and collaborative development. Experienced in Git-based teamwork and Agile workflows, including serving as Scrum Master and lead contributor in a Kahoot-style web application project. Strong interest in software engineering, product thinking, automation, and AI-enabled workflows.

TECHNICAL SKILLS

- Programming: JavaScript/TypeScript, Java, Python, C, SQL
- Frontend & Web: HTML5, CSS3, React.js, REST APIs, JSON, Tailwind CSS, browser debugging tools, Next.js
- Software Engineering: Git, GitHub, Agile/Scrum, OOP, Data Structures & Algorithms
- Systems: HTTP, DOM, SQL/NoSQL fundamentals, cloud deployment, AI-assisted workflows

PROJECTS & LEADERSHIP EXPERIENCE

Scrum Master & Software Developer — Interactive Quiz Platform, OPENET Eye-tracking Benchmarking Platform

- Collaborated in a Git-based Agile team to design and develop web applications
- Served as Scrum Master coordinating sprint planning, task allocation, and communication
- Contributed significantly to frontend development and application logic using TypeScript and frontend frameworks

AI Systems & Workflow Automation Initiative (Ongoing Concept)

- Proposed an AI-assisted workflow concept for a dance education business to reduce repetitive parent communication
- Explored LLM-assisted replies, markdown-based knowledge retrieval, and workflow automation ideas

PROFESSIONAL EXPERIENCE

Brand Ambassador (Part-Time) — Heinemann Duty Free

- Consistently met/exceeded sales targets and received incentives in a premium airport retail environment
- Delivered product recommendations to international customers using English, Mandarin, and Cantonese

Stage Operations Coordinator (Part-Time)

- Coordinated backstage timing, music, lighting, and communication for performances involving ~50 performers
- Worked under time-sensitive conditions to ensure smooth execution

EDUCATION

Bachelor of Computer Science & Commerce (Information Systems)
University of New South Wales (UNSW)
Expected Graduation: Late 2026 – Early 2027 | WAM: 75+

LANGUAGES

- English — Professional Working Proficiency
- Mandarin Chinese — Native/Bilingual Proficiency
- Cantonese Chinese — Professional Working Proficiency

WORK RIGHTS

Australia Citizen with full working rights.
